

CCS2002 | CSE2002 - Group Project

Progress Report 02 – Group 7

Project Identification Information

Project title	: Smart Hotel Web-Based Hotel Management System	
Student names with initials and Index Numbers	Name	Index No
	A.K.N.S Algama	FC 115586
	P.H.G.M Dilshan	FC 115526
	N.R Pimburage	FC 115248
	Y.C.C Liyanapathirana	FC116344
	W.A.C.H Shakunthala	FC 115724
	A.K Hasaranga	FC 115655
	G.P.R.K Weerasinghe	FC 115276
	M.N.S Afrina	FC 115557
Supervisor's name	: Mr K.D. Tharindu Rangana	

Progress Report Period

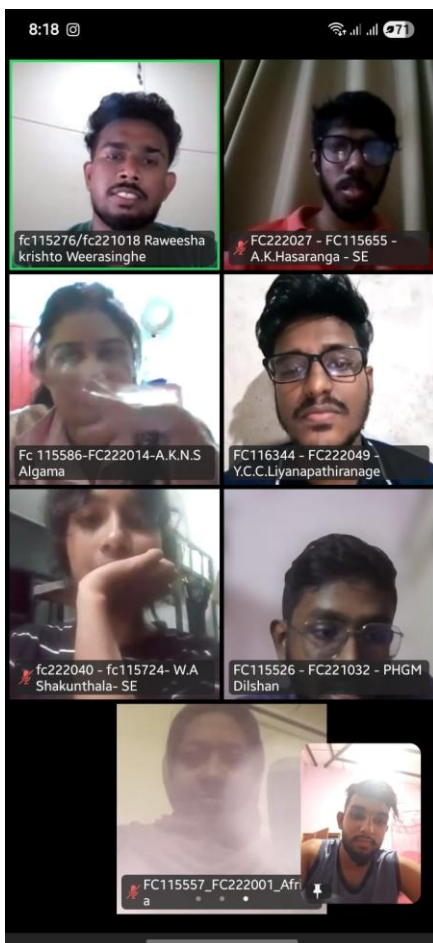

Start Date: 2025/11/28

End Date: 2025/12/08

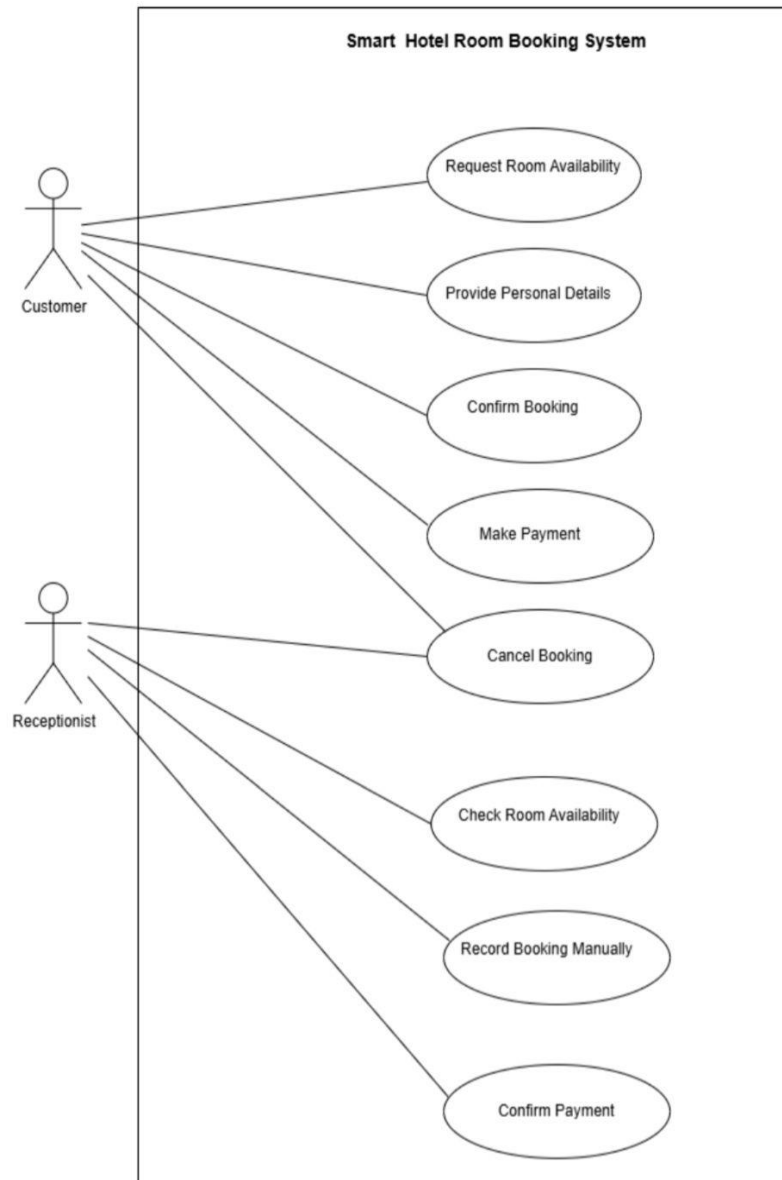

Work Carried out between this meeting and previous meeting

- During the previous meeting, our team discussed and finalized the progress report
 1. We planned the tasks for the next phase of the project.
- 1. We looked at similar hotel systems like Booking.com, agoda.com and tripadvisor to understand how real hotel platforms work. This helped us to finalize all requirements clearly.
- 2. We finished the existing use case diagram and the proposed use case diagram.
- 3. We completed the ER diagram including guests, rooms, reservations, staff, payments, inventories and feedbacks.
- 4. We completed the class diagram showing all system objects and how they're connected
- 5. We designed basic interface layouts for customer side.

Problems Encountered

- Some requirements were unclear until we analysed real hotel examples.
- Complex to build an ER-Diagram with normalization
- Lack of communication and cannot having daily meetings.
- The class diagram needed several adjustments to match the ER diagram.
- Making the diagrams and interfaces match took extra time.

Planned work that were unable to carry out with reasons

- Having a physical meeting with all the members of the group.

Reason – Unable to get all members into a certain location on a certain time due to holidays given because of natural disasters.

- Finalize the product backlog including start date and due date of each task in implementation process.

Reason – Lack of idea about implementation and members not having proper understanding of their own skills and working capacities.

- Drawing sequence diagrams

Reason - we focused more on completing the ER, use case and class diagrams first.

Work planned until next meeting

- Finalize the product backlog.
- Start to implement Database.
- Begin basic frontend structure.
- Draw Sequence Diagram for booking, payment and admin processes.
- Create GUI Design

Meeting information

Meeting Date: 2025/12/05

Meeting time	Start: 8.00 pm	End: 9.30 pm
--------------	----------------	--------------

Number of participants: 8 (All members)

Supervisor's Comments

Student has done	☐ More than enough ☐ Sufficient ☐ Not Enough ☐ No	work.
------------------	---	-------

Student is progressing	☐ Well ☐ Sufficiently ☐ Not Enough	In the project.
------------------------	---	-----------------
